VISIONS OF THE DIGITAL WORLD

In the age of artificial intelligence, I'm interested in the relationship between humans and digital technologies. My main concern is to rematerialize the art object and bring the images generated and designed for flat screens into real, three-dimensional space. In the context of the widespread dissemination of digital technologies, I explore new ways of creating links and avenues between the dichotomies of the material and the immaterial, the physical and the digital.

在人工智能时代，我对人类与数字技术之间的关系很感兴趣。我主要关注的是艺术对象的再物质化，将为平面屏幕生成和设计的图像带入真实的三维空间。在数字技术广泛传播的背景下，我探索在物质与非物质、物理与数字的二分法之间建立联系和途径的新方法。

In virtual reality, our awareness of our bodies and our presence in space is altered. This raises questions about the nature of our corporeal existence and what constitutes Virtual reality blurs between the real leading us to nature of reality and it. What defines senses can be so In my work, I take the extreme: I try to in the real world and, the real world into

在虚拟现实中，我们对身体和我们在空间中的存在的认识被改变了。这就提出了我们肉体存在的性质以及什么是我们的肉体“自我”的问题。虚拟现实模糊了真实与虚拟之间的界限，使我们对现实的本质以及我们对现实的感知产生了质疑。当我们的感官如此容易被欺骗时，“真实”的定义是什么？在我的作品中，我将这种混淆发挥到了极致：我试图将现实世界中的虚拟实体化，反之，也将现实世界带入虚拟世界。

VISIONS OF THE DIGITAL WORLD

One of my intentions with this approach is to highlight the increasingly fine line between the real and virtual worlds, and the possible confusion between the two. My aim is not to propose answers or make judgments, but rather to raise questions:

- Is the virtual a false reality, a falsified reality?
- Where does truth lie?
- Is the real world truer than the virtual one?
- Is reality a criterion of truth?

我采用这种方法的意图之一是强调现实世界与虚拟世界之间日益细微的界限，以及两者之间可能存在的混淆。我的目的不是提出答案或做出判断，而是提出问题：

虚拟是否是虚假的现实？

真相在哪里？

现实世界比虚拟世界更真实吗？

现实是真理的标准吗？
